

TUESDAY, SEPTEMBER 29, 2009

8h30-10h00

SYMPOSIUM 4 **FNA vs. CNB**

Chair: **Gabriela Kocjan, UK**

Speakers:

- 8h30-8h50 Ultrasound-guided FNA and Core-Needle Biopsy of the Head and Neck in the Hands of the Cytopathologist
D. Lieu, USA
- 8h50-9h10 Fine Needle Aspiration cytology versus Needle Core Biopsies in the diagnosis of hepatobiliary lesions
B. Weynand, Belgium
- 9h10-9h30 FNAC vs core bx in the diagnosis of breast lesions
N. Sneige, USA
- 9h30-9h50 Rapid on-site evaluation of samples from endobronchial ultrasound guided transbronchial Fine Needle Aspiration cytology: Our results and comparison with Eus Tru-Cut biopsy results from the literature
G. Kocjan, UK
- 9h50-10h00 Discussion

SLIDE SEMINAR 4 **Infectious Diseases**

Chairs: **Kusum Kapila, Kuwait and Canan Ersoz, Turkey**

Speakers:

- 8h30-8h45 Cytodiagnosis of Pulmonary and Extrapulmonary Tuberculosis
C. Ersoz, Turkey
- 8h45-9h00 Cytology of Leprosy
A. Bhatia, India
- 9h00-9h15 Cytologic Diagnosis of Leishmaniasis
Y. Daneshbod, Iran
- 9h15-9h30 Parasitic Infections in Cytology
K. Kapila, Kuwait
- 9h30-9h45 Fine Needle Aspiration in HIV Positive / Immunosuppressed
M. Louw, South Africa
- 9h45-10h00 Discussion

CYTOTECHNOLOGY SESSION **The present and the future role of cytotechnology and cytotechnologists in Europe**

Chairs: **Maj Liv Eide, Norway and Paula Agapito, Portugal**

Speakers:

- 8h30-8h45 Overview of CT Status in Europe regarding work tasks, workload and CME
I.S. Kirbis, Slovenia and M. L. Eide, Norway
- 8h45-9h00 The introduction of non-medical reporting of abnormal cervical cytology in the UK
P. Smith, UK
- 9h00-9h15 Role of Advanced BMS Practitioner in Cytology
A. Evered, UK
- 9h15-9h30 A cytotechnologist's experience with HPV- testing
S. Borchgrevink-Persen, Norway
- 9h30-9h45 Role of cytotechnologist in FNAs in on site assessment in image guide settings
A. Domanski, Sweden
- 9h45-10h00 Discussion

WORKSHOP 9
FNA of Solid Pediatric Tumours

Chair: **Lisa Wallas, Norway**

WORKSHOP 10
EUS-FNA of Pancreatic Cysts

Chair: **Martha Pitman, USA**

10h00-10h30

POSTER SESSION

10h30-12h00

INTERACTIVE SLIDE SEMINAR
Breast

Chair: **Anna Sapino, Italy**

Speakers:

- I. Amendoeira, Portugal**
F. Zanconati, Italy
J. Kulka, Hungary
M. Drijkoningen, Belgium
G. Aracil, Spain

SYMPOSIUM 5

Neuroendocrine Tumors: a multimodal approach for diagnosis.

Chair: **Maria José Brito, Portugal**

Speakers:

10h30-11h00 Classification of neuroendocrine tumours
M. Papotti, Italy

11h00-11h30 Cytological criteria for diagnosis of neuroendocrine tumours
R. Bardales, USA

11h30-12h00 Assessment of somatostatin receptors and other predictive markers on FNA material
M. Volante, Italy

CYTOTECHNOLOGY SESSION

Interactive Slide Seminar

Chairs: **Maj Liv Eide, Norway and Luís Martins, Portugal**

Speakers:

J. Stani, Austria

S. Hintermann, Switzerland

C. Carvalho, Portugal

M. Persson, Norway

F. Willocx, Belgium

B. Jensen, Norway

SYMPOSIUM

Choosing Advanced Solutions in Cervical Cancer Screening

Chair: **Alain Verhest, Belgium**

10h30-10h50 Superior performance of liquid-based cytology versus conventional cytology in a population-based screening program
H. Beerman, The Netherlands

10h50-11h10 Liquid-based cytology and biomarker testing in cervical cancer screening: Results from a Canadian multicenter study
D. Fontaine, Canada

11h10-11h30 Analysis of conventional smears using computer-assisted imaging
S. Falk, Germany

11h30-11h50 Improved sensitivity for detection of important cervical lesions in liquid-based cytology using computer-assisted imaging
W. Tench, USA

11h50-12h00 Discussion

WORKSHOP 11

CNS/CSF

Chair: **Manuela Mafra, Portugal**

12h00-13h00

PLENARY SESSION 2

Demystifying Molecular Cytopathology

Chair: **Philippe Vielh, France**

Speakers:

- 12h00-12h15 ASCUS AND LSIL: In situ hybridization and viral integration
F. Alameda, Spain
- 12h15-12h30 FISH and CISH.
J. Reis-Filho, UK
- 12h30-12h45 Functional genomics
V. Lazar, France
- 12h45-13h00 **Discussion**

13h00-14h00

POSTER SESSION

EACC MEETING

EDITORIAL BOARD MEETING CYTOPATHOLOGY

14h00-15h30

RESIDENTS SLIDE SEMINAR

Panel: **M. Evelina Mendonça, Portugal**
Edneia Tani, Sweden
Isabel Amendoeira, Portugal
César Lacruz Pelea, Spain

SATELITE SYMPOSIUM

EFCS-JSCC

Chairs: **P. Vielh, France, Tadao Kobayashi, Japan and Robert Osamura, Japan**

Speakers:

- 14h00-14h08 Diagnostic challenge of endometrial cytology: Diagnostic criteria based on the cytoarchitecture of tissue fragments.
Yoshiaki Norimatsu, Japan
- 14h08-14h20 How to make a definitive diagnosis of mesothelioma by effusion cytology
Shorato Maeda, Japan
- 14:20-14h28 Evaluation of Fine-Needle Aspiration cytology in the diagnosis of salivary gland tumor with special reference to the cytological features of basal cell adenoma
Akihiko Kawahara, Japan

- 14h28-14h36 Cytomorphology of reactive renal tubular cells in glomerular disease.
Hiroyuki Ohsaki
- 14h36-14h45 Discussion
- 14h45-14h55 Survey of medical training in cytopathology carried out by the journal *Cytopathology*
Amanda Herbert, UK
- 14h55-15h05 Immunocytochemistry in Europe: results of the EFCS inquiry.
Beatrix Cochand-Priollet, France
- 15h05-15h15 Molecular characterization of cancer cells in malignant effusions: past experience and collaborative potential
Ben Davidson, Norway
- 15h15-15h30 Discussion

FREE PAPERS 3

Chairs: **Maria Nasioutziki, Greece and Ulrich Schenck, Germany**

Increasing diagnostic accuracy of atypical glandular cells in cervical cytology by cytohistology.

E.K.J. Risse, J.P. Holierhoek, E.M. Meijer-Marres, E. Ouwerkerk-Noordam & M.E. Boon
Netherlands

HPV DNA-versus RNA-based testing in clinical practice.

M. Nasioutziki, K. Dinas, A. Danielides, G. Koutsos, A. Loufopoulos & J. Tzafettas
Greece

Negative triage with a HRHPV-test, 6 months after ASCUS & LSIL, can reduce colposcopy rates with 24% and diminish repeat smears numbers with 65%.

G. Balfoort & F.J. van Kemenade
Netherlands

Will diagnostic markers help to predict progression of cervical dysplasia?

B. Hagmar, M. Hagerup-Jensen, S. Hovland, H. Skomedal, W. Ryd, O. Klungsoyr & M. Nygård
Norway; Sweden

Negative cervico-vaginal samples, HPV positives: must be re-screened?

F. Alameda, B. Lloveras, L. Pijuan, L. Gimferrer, S. Albert, M. Bosch, E. Romero, I. Soler, M. Musset, B. Bellosillo, R. Muñoz, R. Carreras & S. Serrano
Spain

Risk estimates for persistent high-risk human papillomavirus (HPV) infections as surrogate endpoints of progressive cervical disease critically depend on reference category. Analysis of the combined prospective cohort of the NIS* and LAMS** studies.

K.J. Syrjänen & the NIS & LAMS Study Research Groups
Finland

Clinical significance of ASC-H in non menopausal, perimenopausal and postmenopausal women.

M. Di Napoli, F. Zanconati, E. Isidoro, D. Bonifacio, A. De Pellegrin, S. Dudine, E. Leonardo, A. Romano, D. Sarcinella, I. Schiavon & L. Di Bonito
Italy

WORKSHOP 12
Breast

Chair: **Torill Sauer, Norway**

WORKSHOP 13
Gynecological Cytology

Chair: **Mina Desai, UK**

16h00-18h00

PLENARY SESSION 3

CONTEST: a fun and exciting contest between the participants including cytopathology and cultural knowledge

Chairs: **Celso Rubens Vieira e Silva, Brasil and Fernando Schmitt, Portugal**
